SUMMARY

A highly motivated and detail-oriented Computer Science Graduate with strong analytical, collaborative, and communicative skills. Proficient in Python, Java, and modern web development architectures, with a proven track record of student leadership and structured problem-solving. Seeking an opportunity to apply technical expertise and interpersonal strengths in a dynamic engineering work environment.

EDUCATION

B.Tech in Computer Science and Engineering(CSE)	2022 - 2026
Dr. A.P.J Abdul Kalam Technical University, Lucknow	7.87 CGPA
Senior Secondary / Intermediate (XII)	2021 - 2022
Walther Inter College, Jaunpur	64.44 %
Secondary / Matriculation (X)	2019 - 2020
Walther Inter College, Jaunpur	75.55 %

PROJECTS

Chat Application

Technologies: Node.js, Socket.io, JavaScript, HTML5, CSS3

- Engineered a real-time messaging application supporting multiple concurrent users with low-latency communication using Socket.io.
- Designed a responsive frontend using HTML5 and CSS3 supporting multi-user chat rooms and secure user authentication protocols.

E-Commerce Web Application

Technologies: React.js, Bootstrap, JavaScript (ES6), HTML5, CSS3

- Developed a fully responsive e-commerce platform featuring 15+ reusable React components and optimized page load performance.
- Integrated client-side routing via React Router, enabling smooth, zero-reload navigation between Product Catalog, Details, and Checkout pages.

Personal Portfolio Website

Technologies: React.js, Tailwind CSS

- Built a responsive portfolio website showcasing 3+ projects, technical skills, and contact functionality.
- Integrated custom contact forms and interactive blog modules, enhancing overall user engagement.

SKILLS

Languages	: C, Python, Java, JavaScript (ES6), SQL
Frontend	: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
Backend & Database	: Node.js, Express.js, Relational Databases, SQL
Core CS Fundamentals	: Data Structures & Algorithms (DSA), OOPS
Soft Skills	: Problem Solving, Team Collaboration, Time Management, Communication

CERTIFICATIONS

Web Development Bootcamp

Udemy | 2023

- Gained hands-on experience in full-stack web development using HTML, CSS, JavaScript, and Bootstrap frameworks.
- Built dynamic web applications featuring React.js on the frontend and Node.js with Express.js architecture on the backend.

EXTRACURRICULARS

President – Coding Club, Vishveshwarya Group of Institutions

2023 – 2024

- Spearheaded organizational initiatives, event coordination, and strategic club management, increasing overall event participation by 40%.
- Organized competitive campus hackathons and coding competitions to foster collaborative, peer-to-peer programming.
- Conducted targeted technical workshops covering Python fundamentals and modern web development methodologies for over 50 students.
